FROM: Ronnie Bowers

SUBJECT: Streamlining Sampling Requests

DATE: June 13, 2002

In an effort to prevent duplicative sampling of waste, streamlining sampling requests has become necessary. Please submit all sampling requests to Brian Gant, an Environmental Compliance Specialist in the TDOT Environmental Compliance Division (Brian.K.Gant.@state.tn.us or fax: 615-741-1791). The sampling request forms have not been modified from the Environmental Compliance Resource Notebook that was distributed in April. So, please continue to use that form for your formal request submission to Brian.

If there are questions regarding this new process, please call Brian Gant (615-532-9563). Thanks.
