REF: **SOAPS APPROVED FOR WASHING MOBILE FLEET**

There are two soaps that have been tested and evaluated by SAIC that passed the following criteria:

1. Does not contain emulsifiers; 2. Releases oil quickly; 3. Results in a pH factor less than 9.5 when used. Only soaps passing this criteria have been approved for use at TDOT's wash bay facilities. Use all the soaps you currently have in inventory under stock item #825282 before purchasing these new products.

Listed are three distributors that can be contacted for obtaining pricing and delivery:
